

DATA SHEET

Product overview

Name	CELT-252
Short description	Potent and selective hAT ₁ angiotensin receptor fluorescent antagonist
Biological description	It shows high affinity and selectivity for AT ₁ angiotensin receptor (K_i = 39 nM in radioligand binding assay).
Biological action	Modulation of hAT ₁ angiotensin receptor by orthosteric antagonism
Quantity	10 µg
Purity	> 97%

Properties

Molecular Weight	1458,79
Source	Synthetic
Appearance	Purple solid
Formulation	Lyophilized solid
Excitation	560 nm
Emission	571 nm
Pharmacological validation	The efficacy and potency of CELT-252 as a hAT ₁ fluorescent angiotensin receptor ligand was confirmed by a radioligand binding assay.

Storing and Using product

Storage instructions	-20 °C (protect from light)
Solubility overview	Soluble in DMSO
Stock solution	Add 69 µL of assay buffer containing 1% of DMSO to obtain a 100 µM stock solution.
Handling	After thawing individual aliquots for use, we recommend briefly sonicating the sample to ensure it is fully dissolved and the solution is homogeneous. We do not recommend using the product after subjecting it to repetitive freeze-thaw cycles.

Shipping conditions

The product, as a solid, is stable at ambient temperature for periods of up to a few days and does not require shipping on ice/dry ice.

Important

This product is for RESEARCH USE ONLY and is not intended for therapeutic or diagnostic use. Not for human or veterinary use.
